

SKID STEER STUMP GRINDER

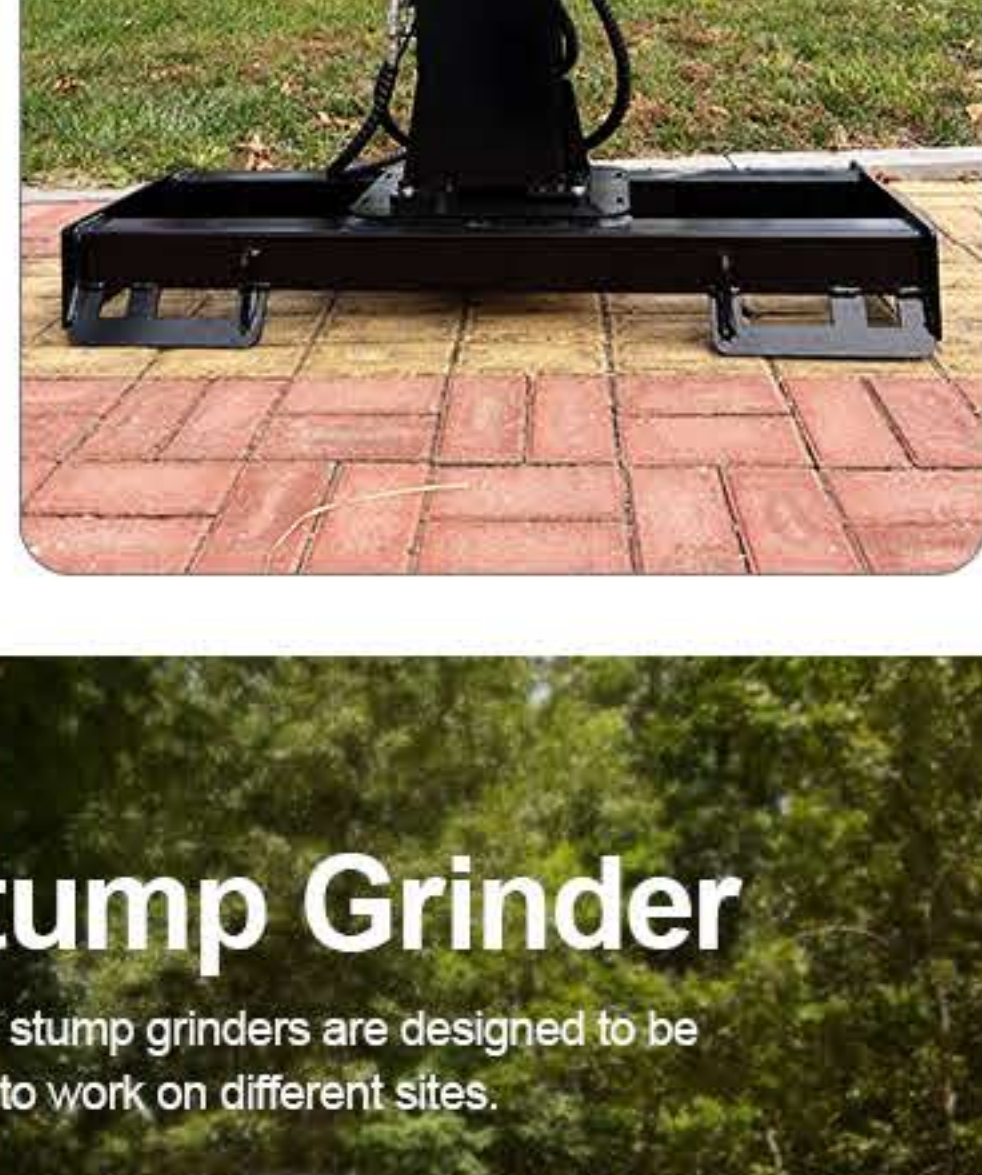

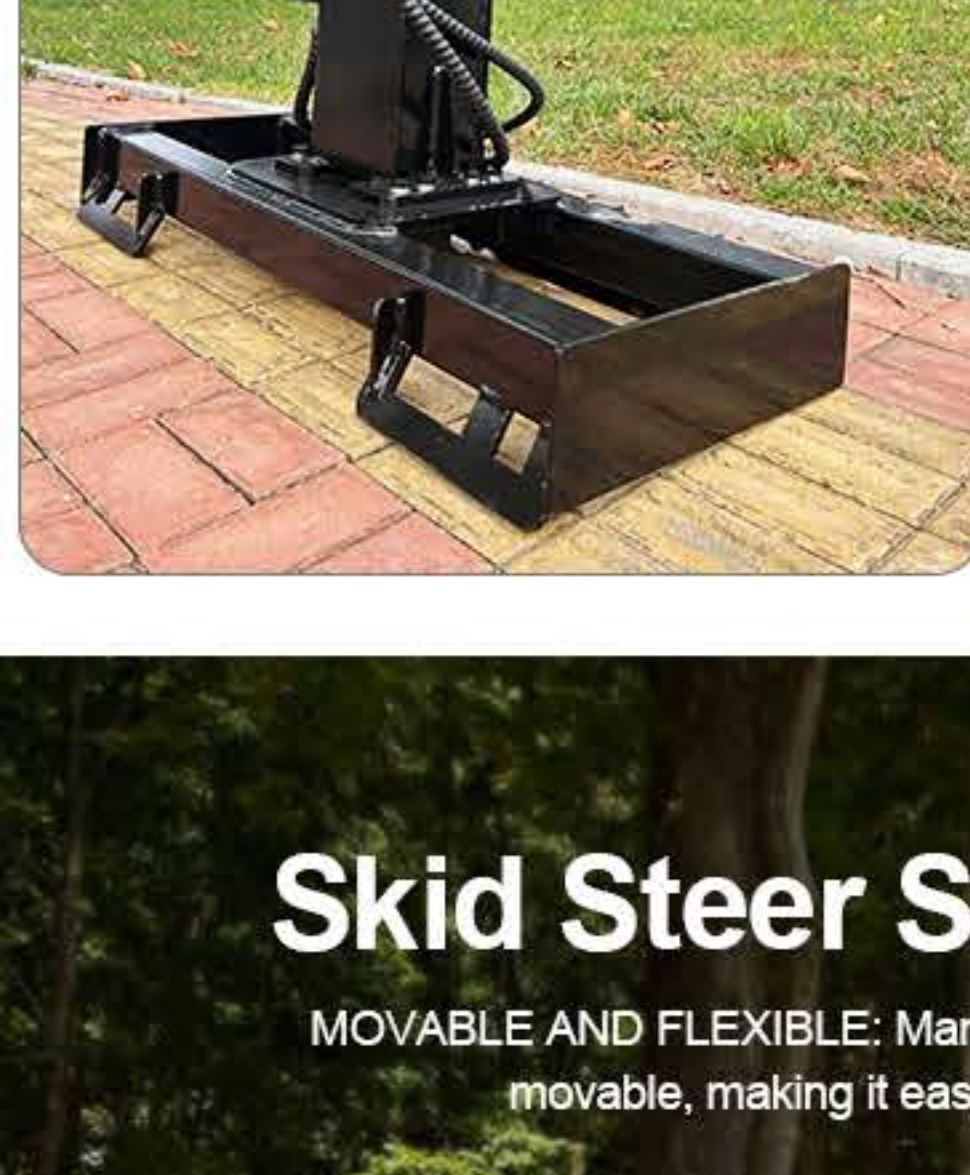

Fast crushing speed: It can quickly crush the stump into smaller particles or fragments in a short time, which greatly improves the working efficiency.

PRODUCT PARAMETERS

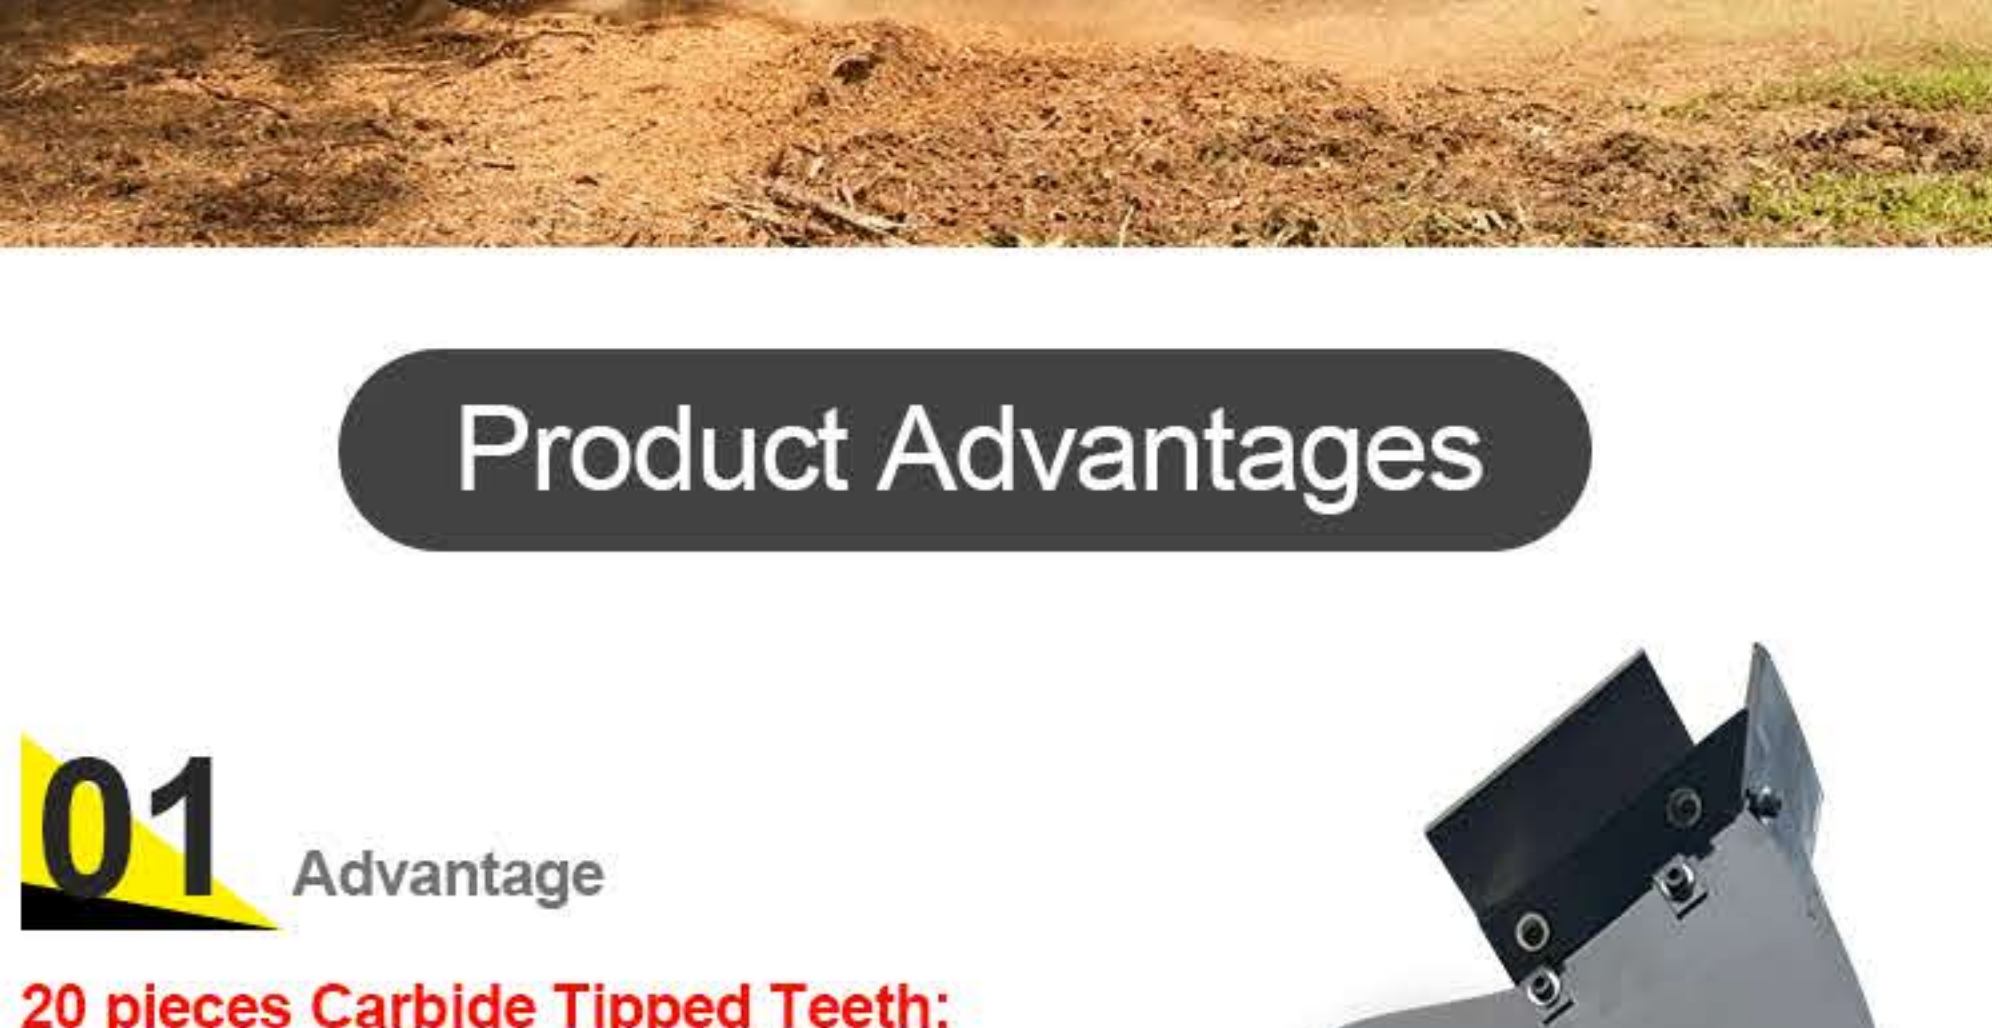

Shandong Mingko Industry Corporation

Rotate	160-500r/min
Weight	140kg
Flow rate require	Above 40L/min
Cutting Blades quantity	20 pieces
Cutting blades material	alloy steel
Cutting depth of the blades	140mm

Skid Steer Stump Grinder

MOVABLE AND FLEXIBLE: Many stump grinders are designed to be movable, making it easy to work on different sites.

Product Advantages

01

Advantage

20 pieces Carbide Tipped Teeth: carbide tipped, removable and replaceable teeth give aggressive bite and superior efficiency

02

Advantage

Maximum Cutting Wheel Speed : Direct drive motor for maximum cutting wheel speed and grinding torque 315Nm

03

Advantage

Best-in-Class Cutting Depth : Best-in-class 140mm full ground cutting depth for easy fill-in and grass seeding over top

SKID STEER STUMP GRINDER

Performance & Efficiency 100% of skid steers hydraulic output is concentrated on cutting wheel for maximum performance & efficiency
